NMorphCH Data Use Agreement

Recipient (identified below) is requesting access to the Neuromorphometry by Computer Algorithm ChicagoÂ (NMorphCH) datasetÂ for the purpose of scientific investigation, teachingÂ or the planning of clinical research studies. Prior to accessing the NMorphCH data ("Data"), Recipient must agree to the following terms and conditions regarding its use:

- Recipient will receive access to de-identified Data which are to be used at Recipientâ€™s own risk. The Data are provided "as is" and Northwestern University makes no warranties, express or implied, regarding the Data, its merchantability or fitness for a particular purpose, its use by Recipient or any product or process based thereon.Â
- Recipient will make no attempt to determine the identity of any individual who contributed to these Data.
- Recipient will cite NMorphCH as the source of Data, and the NMorphCH funding source (R01 MH056584)Â in the abstract as space allows.
- Recipient will include appropriate acknowledgement of the source of the Data in any manuscripts or publications reporting its use in order to accurately acknowledge the contributions of NMorphCH personnel. Depending upon the length and focus of the article, it may be appropriate to include more or less than the example below, however, inclusion of some variation of the language shown below is mandatory:
    - "Data used in preparation of this article were obtained from the Neuromorphometry by Computer Algorithm Chicago (NMorphCH) dataset (http://nunda.northwestern.edu/nunda/data/projects/NMorphCH) As such, the investigators within NMorphCH contributed to the design and implementation of NMorphCH and/or provided data but did not participate in analysis or writing of this report."

- Recipient will acknowledge funding by NMorphCH in the support acknowledgement section of the manuscript using language similar to the following:
    - "Data collection and sharing for this project was funded by NIMH grantÂ R01 MH056584."

- It is the policy of NMorphCH to make Data available to investigators as quickly as possible. However, data analysis for this project is expected to evolve as methods and procedures develop over time. Therefore, Recipient acknowledges that any Data downloaded by Recipient may be preliminary and that results may change as new methods of analysis are implemented. Recipient should ensure it is using the most recent Data available, prior to publication.
- Recipient agrees that the Data should not be redistributed to third parties unless such third parties have agreed in writing to the terms and conditions contained herein prior to transfer.
- Recipient understands that failure to abide by these terms and conditions will result in termination of its privileges to access NMorphCH Data.
